THE LAND OF THE SKY-BLUE WATER

4

(1) Typical summer resort in the north woods of Minnesota. This one is on Potato Lake, near Park Rapids. (2) A North woods spread (3) Here are a few caught at Marcell, Minn. (4) "Ho, for the life of a voyageur, and to answer the call of the wild!"

The Land of the Sky-Blue Water

ONE of the most naive and yet most charming discoveries of the North American Indian is reflected in the name of that state which possesses, unquestionably, the finest climate for life in the great outdoors that may be found anywhere in our country: Minnesota—"the land of sky-tinted water." The Redman saw, with a vision unobscured by materiality, that Minnesota *was* a land of "Sky-blue Water." This vision was handed down in tribal melodies for generations, and has been the subject of innumerable legendary romances.

The Redman knew the Father of Waters and the great pines, the broad skies, and the hills and valleys of the northern Mid-West country pretty intimately, and it must have taken something extraordinary to provoke his enthusiasm. So that name—Minnesota—land of "Sky-blue Water" tells more than all the superlatives of the most enthusiastic present-day devotee of the north country could tell. The Redman wasn't just a *lover of* the outdoors, he was a *liver in* the outdoors. He knew. He was a connoisseur of "hunting grounds," so to speak, and his ideals would, naturally, bespeak plenty of forest, fish, game, and "Sky-blue Water." And there in Minnesota he found them. He could not use them all up, of course, any more than could the generations of white men that succeeded him. So they are still there for you and your children to profit by physically, mentally, morally, intellectually.

The Great White Spirit still hovers over the north woods. It is still, literally, a "Land of Sky-blue Water" up there—a land of ten thousand lakes . . . transparently pure . . . chock-a-block full of fighting fish—a land of tall stalwart pines—a charming place to be—a profitable place to be—a healthy place to be. It is, in actuality, one of the healthiest spots on earth. It occupies the most elevated plateau between the Gulf of Mexico and Hudson Bay, its average elevation being one thousand feet above sea level. Fogs and prolonged spells of damp weather are almost unknown; and the general dryness of the atmosphere results in skies of brilliant *lapis lazuli* and a general physical and mental exhilaration that is comparable only to that one experiences in the mountain ranges of the Far West. Minnesota's healthfulness has been so generally recognized that, at the Paris Exposition, St. Paul was accorded the highest award as the healthiest city in the world.

Minnesota is a real vacation land—a vacation land in which you may choose your own shelter from a great variance ranging from a modernly appointed hotel to a rustic lodge or your own tepee, out under the stars with a bed of pine boughs.

If you are a true sportsman and love to paddle a canoe, or bend your back to the burden of it over a long portage, or battle a giant muskallonge; or if you are just an all-round lover of God's great outdoors and your hobby is to click your camera on a particularly charming bit of landscape composition—spend this summer in Minnesota. If you do, you'll return next year and probably several succeeding years.

Minnesota's fishing is incomparable. The St. Croix is full of bass; her muskallonge—"the tiger of the North"—has been the subject of innumerable books and special articles; there are natural beauty spots than which there are none more attractive. The Little Minnesota River is full of them; so is Bear River, and her "Ten Thousand Lakes" are famous the world over—Pelican Lake, Net Lake, Rainy Lake, Caribou Lake, Red Lake, Leech Lake, Mille Lacs, Minnetonka, and a score of others beautiful beyond measure.

We recommend no specific lake, for each Minnesota lake possesses its own individual charm. Each has its own peculiar attractiveness.

If you will, you may play the role of the "voyageur" and spend days in the wilds—in a labyrinth of bays and lakes and gliding rivers, or you may stop at a fashionable summer hotel and enjoy the round of summer gaieties.

Space does not permit furnishing detailed information regarding the innumerable charming resorts of Minnesota's ten thousand lakes. We have been able to touch only the high spots in the descriptive matter, but on pages 17 to 29 complete information is given with respect to hotels, boarding houses, their rates, and the species of fishing for which each resort is especially known. For any further information regarding any specific resort you are urged to communicate with the nearest Great Western agent or passenger representative.

MINNESOTA'S TEN THOUSAND LAKES

AITKIN (E-6) is on the Mississippi River and of easy access to over 200 lakes plentifully stocked with black bass, pike, pickerel, white fish, muskallonge, and crappies. Round Lake is of exceptional beauty. It is one-half mile long and one mile wide and more or less wooded. One-half mile south of Aitkin lies Mille Lacs Lake, twenty miles long with 1,000 miles of shore line. Sufferers from hay fever and asthma get quick relief in this region.

AKELEY (D-5), in the heart of the pine woods region, is a favorite "jumping-off" place for canoe trips into the chain of fishing lakes in and about Leech Lake, Ten-Mile Lake, Shinglebee, Lake Howard, Bass Lake, and the eleven Crow Wing lakes. These lakes abound in bass, pike, pickerel, crappies, and muskallonge. There are numerous camps and resort hotels of easy access, many of the latter being new and modern.

ALEXANDRIA (C-7) is 1,400 feet above the sea level, at the apex of the divide between the Red River on the north and the Mississippi. It is never oppressively hot at Alexandria. There are excellent resort accommodations and the region is famous for splendid fishing. Bass, great northern pike, perch, and crappies abound in its waters. The lakes and channels about Alexandria are large enough to permit of boating in launches and sailing craft. In short, it is an ideal recreational center. Adjacent to Alexandria are Lake Agnes, Victoria, Wenona, Cowdry, Carlos, Geneva, Lakota, Andrews, Jessie, L'Homme Dieu, Merger, Ida, Minnie, and Darling. A sporty eighteen-hole golf course with a fine new club house is maintained for summer visitors. Splendid lawn tennis courts with provisions for croquet and other games. Miles of sandy beaches of shallow water safe for children. The Alexandria Commercial Club maintains a Tourist Bureau and will gladly furnish any information desired.

ANNANDALE (D-8) and CLEARWATER. In this vicinity there are some seventeen lakes, Clearwater being the largest. Clearwater is one of the most attractive lakes in the Minnesota lake region. Its shores form a succession of bays with high wooded banks sloping to the water's edge. Fishing—black bass, crappies, pike, pickerel, and lake trout. Hunting—ducks, quail, pheasant, and partridge. There are many sandy beaches. Excellent roads lead to all resorts in the vicinity of Annandale and Clearwater. Golf at St. Cloud Country Club, sixteen miles north of Annandale.

BACKUS (D-6). A whole family of the primeval lakes of Cass County are reached from Backus—Woman Lake, Man Lake, Boy Lake—Little Boy Lake, too. "Close-to-town" lakes encircle Backus also—a dozen within a radius of a dozen miles—and Pine Mountain Lake is just a stroll away. The lakes hereabouts are thick with muskallonge, pike, bass, pickerel, and whitefish.

BALD EAGLE is but a short distance from St. Paul and Minneapolis and has grown increasingly in recent years as a summer resort. Its proximity to the Twin Cities makes commuting possible and there is a large cottage colony in addition to excellent hotels. About a mile from Bald Eagle is White Bear Lake, a large and very attractive body of water. Bass, pike, crappies, sunfish, and pickerel fishing.

BEMIDJI (C-4) is in the center of a large hunting and fishing country. It is, in fact, located in a pine woods forest on the shores of Lake Bemidji and is surrounded by innumerable other and smaller lakes. Moose, deer, partridge, and rabbits are plentiful. There is excellent duck-shooting, and the numerous clear forest-girt lakes abound with bass, pike, pickerel, and trout. While Bemidji is really in the heart of the north woods and on the very edge of the "wilds" it is unique in the possession of the famous Birchmont Beach Springs hotel at the head of Lake Bemidji which affords the summer visitor opportunity for tennis, golf, horseback riding, and every other outdoor sport peculiar to the modern high-grade summer hotel. In the vicinity of Lake Bemidji are Lake Plantagenet, Long Lake, Big Bass Lake, and others.

BRAINERD (D-6). If it's fishing you're after, you'll enjoy every hour of your stay in the country roundabout Brainerd. Brainerd stands where the Mississippi flows out of the "piney woods country" in the neighborhood of a score of the fishing lakes of Crow Wing County. Wall-eyed pike, northern pike, black bass, and pickerel will give you a first-rate brush—crappies, perch and sunfish, too. At Rocky Point on Gull Lake and at South Long Lake, also, are resorts of the cottage type, where you're sure of good things to eat and a real night's rest after you bring in your catch. Brainerd, too, is the gateway to the Cuyuna Range and its iron mines—a well-worth-making side trip—and from Brainerd to great Mille Lacs and back is still another side trip. Golf at the Country Club.

BROWNS VALLEY (A-8) is in Traverse County and embraces the famous Big Stone Lake on the south and Traverse Lake on the north. Plenty of fishing, excellent hotels.

CASS LAKE (D-4), near the head waters of the Mississippi River and deep in the northern pine country is linked by the Mississippi River to Andorsia, Wolf and Little Wolf Lakes. Excellent fishing, including muskallonge up to forty pounds, pike, bass, pickerel, white fish, and crappies.

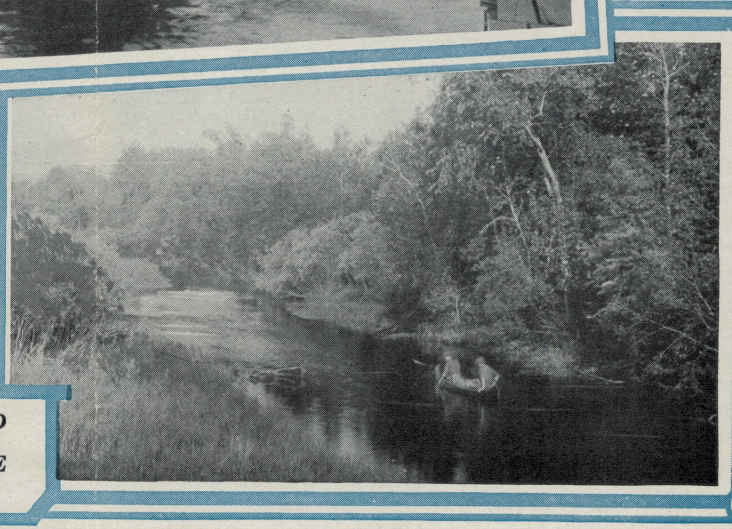
THE LAND OF THE SKY-BLUE WATER



5

(1) A view of Merritt Lodge on Leech Lake. (2) Golfing comparable only to that in the Scotch Highlands. (3) Typical Northern Minnesota summer resort in the Lake Park region around Detroit and Alexandria. (4) Pipe Island. (5) Close to Nature—near Marcell, Minn.

DASSEL (D-9), on Lake Washington, is far enough from the city so that fishing is uniformly good. Bass, pickerel and pike. Dassel is surrounded by several small lakes, all within easy reach. An excellent golf course is available at Litchfield.

DEER RIVER (E-5). A splendid place for fishing and hunting, an abundance of bass and pike; partridge and duck are plentiful. Comparatively speaking, this is a new country, and fishing and hunting are excellent. The hotels have been enlarged and new ones have been added.

CAMP IDLEWILD, Marcell (E-4), Itasca Co., Minn., ranks among the better of Minnesota's real north woods resorts, and is an attractive place for families and sportsmen desiring to spend their summer in the cool north woods. The equipment of this camp is most complete and of high standard, as is its table, furnishings, service, etc. It is a central dining place with nice cozy cottages skirting the lake shore, all of which are electric lighted, screened, etc., and are of various sizes. Surrounding the camp is an almost countless number of beautiful virgin lakes teeming with black bass, pike, crappie, and the other fish common to the north country. Boats are kept in twenty-five of these lakes for Idlewild guests. It is a place for a wonderful fishing trip, or where you can go boating, canoeing, bathing, hiking through the wooded trails, see wild deer and other wild animal life, or just rest and enjoy the fragrant breezes from the pine and balsam forests. Auto meets guests at Deer River (on G. N. Ry.) by request. Telegraph and phone service via Deer River.

DEERWOOD (E-6) is in the piney woods country surrounded by a dozen little lakes where the fishing is prime—black and small-mouth bass, pike, pickerel, and crappies. Delightful scenery and miles of clean sandy beaches. Deer and small game hunting in season. A well-kept nine-hole golf course is available for tourists. Hay fever and asthma quickly relieved in this region.

DENT (B-6) is within easy distance of Lakes McDonald, Star, Silant, Marion, and Dead Lake. Pike are plentiful hereabouts as well as bass, pickerel and perch. Duck and quail hunting in season.

DETROIT (B-6). The hub of one of the "playfullest" of the summer playgrounds of the Lake Park Region. When you step down from your train at Detroit City—atop the divide between the Mississippi River and the Red, and above sea level close to fourteen hundred feet—you're on the north beach of one of the finest waters of Becker County, Little Detroit Lake and Big Detroit Lake. Commodious and modern hotels will make you comfortable as long as you tarry in Detroit. To say which one of the lakes of the Detroit chain is the most delightful is next to impossible—because all of them are delightful. All are rimmed by bluffy shores and groves of white birch, oak, elm, and basswood. On all of them the fishing is of the best—big-mouth and small-mouth bass, wall-eyed pike, pickerel—the lakes are regularly stocked by the State Hatchery at Detroit which keeps the angling at top-notch. The bathing is tiptop.

Most of the folks who come to Detroit "go in for" motor-boating, golf, tennis, and the "hops." But if you want to "get away from the crowd" you can do that—and splendidly. All about Detroit—all through Becker County—there are scores of lakes where "camping out" is ideal and where you can be just as much of a "lone fisherman" as you wish.

DORSET (C-5) is a splendid fishing resort and the natural home of the muskallonge. It is, in fact, located in the heart of the fishing region of northern Minnesota. Big and Little Sand Lakes, Mantrap, Eagle, and others are within a short distance of the town of Dorset; and the adjacent pine forest has plenty of deer and partridge.

ELY (G-4), on the threshold of the real "north country" of Minnesota. The "north country" where the Superior National Forest outstretches in silent vastnesses of tamarack, spruce, birch, and pine. The "north country" of moose and elk and caribou. The "north country" of almost countless still lakes that the bass and the pike inhabit—and of streams thick with "whitewaters" and falls and portages—and of canoemen and of birch, bark canoes.

Burntside Lake lies just to the westward of Ely, and White Iron Lake lies just to the eastward of Ely—and of all of the enchanting lakes-in-the-forest that belong to this "north country," Burntside and White Iron are two of the most enchanting. Famous fishing, too—lake trout, brook trout, wall-eyed pike and northern pike, black bass, whitefish, muskallonge, and pickerel.

Ely is the starting-out-place for some of the most fascinating canoeing-and-camping pilgrimages to be found in all America. Northward is the circle tour from Ely to Tower, by way of the international lakes of Basswood and La Croix and Loon, and thence up the Vermillion River. The tour eastward is by way of White Iron, Bald Eagle, Isabella and Parent Lakes, and the Birch and Isabella Rivers, and thence back by the Kawishiwi River. And not to be overlooked is the tour to the northeast—to and through Saganaqa Lake and River, Cache Bay, Quetico Forest, and Agnes Lake.

(3) Lake Calhoun, Minneapolis. (4) A cast—a strike—he's on! Now, can you land him?
(5) Camp Idlewild. An enchanting sylvan spot.

FERGUS FALLS (B-6). Fergus Falls is the gateway city to Otter Tail County, the biggest and the "lake-iest" of all of the counties of the Lake Park Region. Otter Tail County measures close to a half-hundred miles across—both east-and-west and north-and-south—and for every one, almost, of its many square miles, there's a sparkling lake. Otter Tail, Big Pelican, Lizzie, Lida, Star, Rush, Big McDonald, Big Pine, West Battle, Clitheral, Ten-Mile, Little Pelican, Little McDonald, and Little Pine are waters that wouldn't be called little in most regions—and the really "little fellows" count up in the hundreds. The Otter Tail River and Pelican River wind all through the county, too—navigable almost anywhere for motorboats and evinrudes. Of that tremendous fish population that's found in the Lake Park Region, a very generous share dwells in Otter Tail County's waters—"pike lakes," "bass lakes," "pickerel lakes," and "perch lakes," where you can match your skill with scores of redoubtable sportsmen; and then, again, there nestle in all corners of the county easy-to-get-to waters where you can fish all by yourself. The resorts of Otter Tail County are many—some of them are elaborately equipped vacation places where folks go for the motorboating and evinruding and bathing, and for the tennis and the dancing—some of them again, are places where folks go "just to fish." The Commercial Club of Fergus Falls maintains a Tourist Information Bureau and will gladly give general information or make reservations at the various summer resorts.

GLENWOOD (C-8). At Glenwood's elbow is one of the biggest and one of the most charming of the picture-book waters of the Lake Park Region—Lake Minnewaska. From Minnewaska's head to Minnewaska's foot is a cruise that's ten miles long, and all along its shores high grassy hills slope down to groves of big, old trees and to the sandiest of beaches. Boating and bathing to your heart's content are to be had at Minnewaska, and plentiful fishing for pike, pickerel, perch, and black bass. A golf course for visitors is available. Lakeside dancing pavilion open two evenings per week during season. All of the vacation things-to-do that are common to the Lake Park waters.

GRAND RAPIDS (E-5). A comparatively new recreational center on the upper Mississippi River. There are many small lakes in the pine forests that have not been frequented to any great extent, so that the fishing is excellent—white fish, muskallonge, bass, pike, and lake trout. Address Commercial Club for general information.

HACKENSACK (D-5), in the pine tree district on Birch Lake, is another going-in point for the "family of lakes" of Cass County—Woman Lake, Man Lake and the rest. Ten-Mile Lake and its fish are quickly reached from Hackensack. Pike, pickerel, bass, and muskallonge fishing.

INTERNATIONAL FALLS (E-2). At the shore of the Rainy River—and just across the Rainy is Canada—you've pilgrimaged at "International" to Minnesota's northern "land's end." Also, you've gained the threshold of the primeval woods-and-waters country of the Rainy Lake and the Rainy River.

At "International," by launch, motor boat or canoe, you can go exploring into Rainy Lake—a "hide-and-go-seek" cruising among hundreds of rock-bound islands. You can fish for pike, pickerel, whitefish, lake trout, and sturgeon. If you care to camp out you'll find no more ideal place anywhere than some one of Rainy Lake's islands.

"International" is the starting point, also, of another splendid water trip—by cabin cruiser or motorboat down the Rainy River to its mouth and thence on into the Lake of the Woods.

ISLE ROYALE is located in Lake Superior near the Canadian border, about 150 miles from Duluth. It is nearly fifty miles long and averages from ten to twelve miles in width. Nature has bestowed a rare charm on Isle Royale. It possesses lakes, rivers and even mountainous elevations. It is fringed with hundreds of scenic islands, many large enough to invite campers and cottagers. In short, for rest, health and an ideal vacation Isle Royale cannot be surpassed. There is excellent fishing and there are ample accommodations for guests at the several modern, up-to-date hotels.

ITASCA STATE PARK (C-5). A vast, virgin forest inhabited by preserve-protected game (deer, elk, beaver) and penetrated by fascinating thoroughfares and trails, with Lake Itasca, the source of the Mississippi within its confines—this is Minnesota's State Park. It contains about one hundred million feet of standing timber, the finest in the State. Within the Park are scores of beautiful lakes unmarred by logged roads or human habitation. There are plenty of bass, trout, muskallonge, pike, and crappies, and usually the fisherman is generously rewarded. There is an attractive resort hotel on Lake Itasca—Douglas Lodge.

JENKINS (D-6), on the shores of Lake Whitefish, is in a delightful region that is new. Forests of pine, birch, oak, and poplar cover the land round about. In the chain of lakes surrounding Lake Whitefish, bass, pike, pickerel, perch, and crappies are plentiful, and muskallonge are frequently caught. It is an ideal region for fishing, hunting and general outdoor recreation.

1

2

3

4

THE LAND OF THE SKY-BLUE WATER

(1) On beautiful Lake Sylvia, South Haven, Minn. (2) Duck Hunting at Lone Pine Camp—on the main highway of the big fall flight. (3) The sandy beach of a lake that is clear as crystal. (4) Here's a woodland paradise for old and young.

MINNESOTA'S TEN THOUSAND LAKES

LAKE MINNETONKA (E-9). One of the most renowned resort lakes in America. It is fourteen miles from Minneapolis and twenty-four miles from St. Paul. Minnetonka was named "Big Water" by the Sioux Indians and is the locale of Hiawatha's wooing. Out of the lake flows the stream made famous by Henry Wadsworth Longfellow—the Falls of Minnehaha—"laughing water." There is no finer spot within a day's run of the Twin Cities than this delightful sheet of water with its innumerable bays and islands and densely wooded shores. People of the Twin Cities have built splendid summer cottages all along the shores of the lake and there are two very attractive clubhouses at Minnetonka Beach. Sailing, motor-boating, tennis, and golf are incomparable. Excellent hotels.

LINDSTROM (F-8) (Chisago Lakes) comprises a charming group of five lakes known individually as Green, Big, Lindstrom, Chisago, and Sunrise Lakes. Bass and other game fish are found in these waters in goodly numbers. Excellent hotels and cottages.

NEVIS (D-5), in the "piney woods country" of Hubbard County, adjacent to Belle Tain Lake, Shallow Lake and Deer Lake. Many pike, pickerel and bass are in these waters—muskallonge, too. Partridge, prairie chicken, duck, and geese hunting.

NISSWA (D-6) is in the pine district near the Gull Lake chain, including the following lakes: Gull, Pelican, Roy, Upper Gull, Kilpatrick, Round, Long, Cullen, Twin, and Edward. Black bass and other game fishing.

NORTHOME (D-3). The lakes in and around Northome are Bartlett, Island, Battle, Moose, and Squaw; abound with pickerel, pike, crappies, and muskallonge. Good duck shooting at Squaw Lake.

OSAKIS (C-7) is one of the most popular resorts in Minnesota. The town is built on the shore of Lake Osakis, a magnificent sheet of water twelve miles long by three miles wide, and it has become famous as a camping and fishing ground for Twin Cities' business men and their families. Fishing is excellent. There are plenty of bass and wall-eyed pike. Launches, rowboats, yachts, and guides are available. There are excellent summer hotels.

ORTONVILLE (A-8). On Big Stone Lake with a thirty-mile sandy shore line. Fishing is always good—black bass, pike, perch, crappies. When you cruise to Big Stone's head—by launch or motor boat—you reach a very interesting portage. On your one hand, out of Big Stone, the waters start for the Gulf of Mexico—by the Minnesota River and thence by the Mississippi. On your other hand—across the portage—is that other "frontier" lake, Traverse, and out of Traverse the waters set away for Hudson Bay—by the Bois de Sioux—and thence by the Red River of the North. Golf course, two miles from town.

PARK RAPIDS (C-5). This is one of the most popular fishing resorts in Minnesota. Almost every variety of Minnesota fishing is found in the waters surrounding Park Rapids—muskallonge, bass, pike, pickerel, and crappies. There are many resort hotels in the pines surrounding Park Rapids, all conducted on the cottage plan. Itasca State Park is reached from Park Rapids over the Jefferson Highway, a distance of thirty-two miles. Visitors are welcome at Park Rapids Golf Club. For general information, address Secretary, Community Club, Park Rapids, Minn.

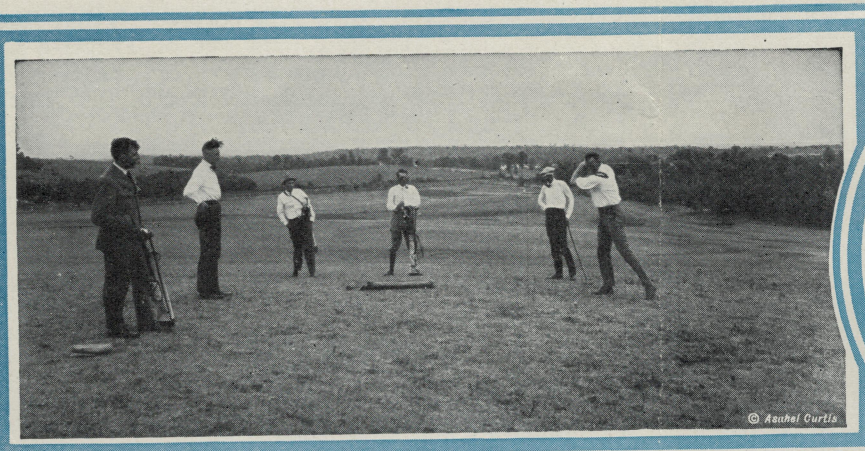
PELICAN RAPIDS (B-6). A delightful summer outing country. There are hotels at practically all of the surrounding lakes and many cottage resorts. The region has long been known as one of Minnesota's best fishing grounds for black bass, rock bass, wall-eyed pike, great northern pike, pickerel, and perch. At Lakes Lizzie and Lida, small-mouthed bass are especially numerous. During the fall, duck hunting is good.

PERHAM (C-6) is in the County of Otter Tail, which, in turn, is that biggest and "lake-iest" of the counties of the Lake Park Region. Here are the linked lakes of Big Pine and Little Pine. Big and Little Pine, so Perham folk say, are the champion pike lakes of Minnesota. Pike is especially good hereabouts—plenty of bass, too. Marion is another lake for pike that's close by Perham. And within easy distance are the McDonald Lakes, Big and Little, Lake Sybil, Rush Lake and, the head of that "big water" of Otter Tail County, Otter Tail Lake itself.

PINE CITY (F-7) is on the site of an old Indian village which was called Chengwatana and is located between Pokegama and Cross Lakes. These lakes are well stocked with pike, pickerel, bass, and crappies. Small game hunting in season.

PINE RIVER (D-6). The going-in point for Whitefish Lake, Sibley Lake and a half dozen more of the fishing waters of Crow Wing County. Black bass, pike and muskallonge fishing. Ducks, partridge and deer hunting.

RANIER (E-2) is on the International boundary on Rainy Lake. Motor launches carry you up Rainy Lake to the camps on Deer Island, Kettle Falls and Lake Namukan. Rainy Lake is forty miles long and forty-five miles wide. The lake contains 562 islands. There are no developed summer resorts at Ranier.



1

2

3

4

5

THE LAND OF THE SKY-BLUE WATER

(1) On Detroit, Minn., Golf Course. (2) Here are a few that didn't get away. (3) Douglas Lodge on Lake Itasca, in Itasca State Park, the source of the Mississippi River. (4) Gorge of the St. Croix from the cliffs above. (5) View of Pipe Island.

RAINY LAKE (E-2). Rainy Lake is in the Lake-of-the-Woods district of Minnesota, in the extreme northern part along the Canadian boundary. Here are the last great forests of the Middle West. There are moose, deer, bear, caribou, and all of the fur-bearing animals of the forest. The canoeist who desires to get away from the cities into the true wilderness can find no better place than the Lake-of-the-Woods district of Minnesota. It is not a district of isolated lakes but one glorious connected lake-land with abundant camping sites.

SAUK CENTRE (C-8) is at the threshold of the Lake Park Region. Sauk Centre is the going-in-point for Birch Lake and Ward Springs. Fairy Lake, Long Lake and Sauk Lake are near by. Good bass, pickerel and crappie fishing. There are twenty cottages on Sauk Lake, twenty-five on Birch Lake and ten on Fairy Lake, all privately owned. Persons desiring to rent one of these cottages should address V. T. Conklin, Secretary, Community Club, Sauk Centre, Minn.

SOUTH HAVEN (D-8). Adjacent to South Haven are Lakes Sylvia, Mary, Caroline, Frances, Betsy, Augusta, Pickerel, Big Otter, Union, John, and Scott. Black bass, crappies, pike, pickerel, and speckled trout fishing—duck and quail hunting in season.

TOWER (G-4). Tower is on the threshold of the wilderness—a land of virgin tamarack, spruce, birch, and pine, where the moose, caribou and birch-bark canoe flourish. It is on the edge of that incomparable body of water, Vermillion Lake, with its innumerable bays, inlets and islands.

Vermillion's limpid waters are plentiful with wall-eyed pike, muskallonge and land-locked salmon. Tower is the starting place for canoeing and camping trips that lead to the lakes and rivers lying along the north-eastern boundary of Minnesota and Ontario.

TWO HARBORS (H-5) is on the north shore of Lake Superior, the largest body of fresh water in the world. A busy port where many big "freighters" of the Great Lakes come and go—and where the fresh east wind comes romping in from down-Superior. Very rugged neighborhoods of Superior's rugged north shore are near by—where the waves break at the feet of the rocky headlands. Golf courses, tennis, river fishing, etc. Climate noted as antidote for hay fever.

VERMILLION LAKE (G-4), on account of its remoteness from the beaten paths of the summer visitor, holds many charms for the angler, hunter and those in search of quiet. Big game is plentiful and the lake is generously stocked with black bass, pike, pickerel, and muskallonge. It possesses a fine, sandy bathing beach. The canoeist will find the Vermillion Lake Region a rare delight. With small portages, trips may be made covering over 300 square miles of territory abounding with lakes and virgin forests.

WALKER (D-5) is on the south arm of Leech Lake and on the north shore of Lake May. Its chief attraction is its fishing; and the golden pike that abounds in the depths of the waters of Leech Lake rivals the bass in its fighting spirit. The pine woods about Walker are a notable attraction. From May until cold weather there is an abundance of strawberries, raspberries and blueberries. There are steamers, gasoline launches and sailboats on Leech Lake, which make daily trips.

At Walker, modern hotels are convenient to the docks, and their windows look out across the south arm.

Walker is the starting-out point, also, for many canoe-and-camping pilgrimages—south through the Woman Lake chain, northwest into the Mississippi's head waters, northeast to the lakes and streams of the International boundary.

WARROAD (C-2) is the "farthest north town" of Minnesota and is the gateway to mighty Lake-of-the-Woods. Save for Superior it's the biggest water that Minnesota has a share in, Lake-of-the-Woods: an International "big water" of which a half belongs to the United States and a half to Canada—a "big water" that from head to foot measures near to a round hundred miles. In many places Lake-of-the-Woods outstretches in splendid reaches where there's never a "Land Ho"—and in many other places scores on scores of islands, rock-bound and ever so rugged, but forested and moss-covered and ever so lovely, rear thickly out of the lake and divide it into enchanting narrows.

From the docks at Warroad, steamboats, launches and motor boats will take you a-voyaging on the Lake-of-the-Woods—along the rock-bound shores to the fishing-grounds and to ideal picnicking and camping places and to sandy beaches at the feet of the cliffs—or "away out" to the regions where the islands and the narrows are. There's the keenest of fishing for muskallonge, black bass, pickerel, and pike. Deer, duck and geese hunting in season.

AMERICAN POINT—on Lake-of-the-Woods, the most northern point in the United States. Central lodge and sleeping cottages, also housekeeping cottages located in wilderness among the beautiful islands of Lake-of-the-Woods. Launch only means of transportation from Warroad, fare $1.50. Rates for board and room or cottages, on application. Open all year. Guides for hunting or fishing. George Arnold, Proprietor, Warroad, Minn.

CHEERFUL, COURTEOUS SERVICE

CLUB CARS ARE PATTERNED AFTER THE FINEST METROPOLITAN CLUBS

DINING CAR SERVICE FAMOUS FOR ITS EXCELLENCE

Perfect Comfort and Fast Service to the Land of Sky-Blue Water

FAST, all-steel limited trains of the Chicago Great Western, from Chicago, Kansas City and Omaha, carry you swiftly and smoothly direct to St. Paul and Minneapolis, the gateway to Minnesota's Ten Thousand Lakes.

You will find Great Western service distinctive—comfortable Parlor, Observation, Lounge and Club Cars with easy chairs, popular magazines and writing facilities—latest improved type of Pullmans.

The moment you step aboard your train, you know instinctively that you are going to enjoy your trip. For there is an atmosphere of quiet hospitality about the train service—an unobtrusive spirit of solid comfort—that can be compared only to the sense of relaxation you feel when you sit down under the lamplight in your own home.

The Pullman conductor greets you with genuine courtesy. So, too, the porter, as he politely takes your bag and leads the way to your section in the Pullman.

Dining Car Service

"Dinnah is ready now in the dining car, suh. Go right in if you wish."

As you enter the roomy, well-appointed diner, you observe the restful atmosphere of home. You couldn't ask for finer meals than are served. Especially famous are the $1.50 table d'hote dinners. There's a hint of "Old Virginy" in the cooking and the service.

The Club-Buffet Service

No matter whether you are in the mood for meditation over your after-dinner cigar, or seek the spirit and talk of good fellowship, you'll also like our Club-Buffet service.

Men and women alike are delighted with the luxurious comfort of the Observation-Lounge Cars with easy chairs, popular magazines and writing facilities.

Roomy, Comfortable Pullmans

Whenever you wish to retire, you'll find your Pullman ready for you—latest improved type, with restfullness built right into every detail. A good night's rest! It will be yours as your train speeds serenely and safely through the hush of the countryside.

How Our Representatives Can Help You

Any Great Western representative named on page 31 will gladly tender assistance in furnishing further information about resorts, summer excursion fares and train schedules; he will render helpful co-operation in arranging your trip, attend to the securing of Pullman reservations and railroad tickets, and in a hundred other ways relieve you of the little details incident to traveling.
